Comcast is **already in your building.**

Get connected to our advanced, award-winning network.

You get:

- A broad range of Data, Internet, Voice and Video business solutions
- Comcast Ethernet, which provides a dynamic, fiber-based network platform that powers your IT applications and business communications
- The Metro Ethernet Forum's 2017 Ethernet Application of the Year for Government and Sports & Entertainment
- Advanced Voice: A portfolio of crystal clear phone products designed for your business. Choose from voice lines, a managed, cloud-based PBX service, PRI Trunks or a combination.
- Improved network performance and support for high bandwidth applications
- Comcast Business WiFi: As a Comcast Business Internet customer, you'll have access to two separate WiFi networks. Your employees will have access to your private WiFi network, while a completely separate public WiFi Hotspot gives your customers the access they want and the visibility you need.

Comcast Business has been awarded:

Metro Ethernet Forum's Excellence Awards 2014
Best Service of the Year North America

Metro Ethernet Forum's MEF Awards 2017 Enterprise Application of the Year for Sports & Entertainment and Health

and

Vertical Systems Group Year-End 2017 Leaderboard Status for U.S. Carrier Ethernet Services
